

Telerad RxDx Launches pediatric wellness check package from 14th Jan

Wellness check packages are available for children between the ages 0-12yrs.

Indian immunization schedules will be followed for immunizations. We request parents to bring in the child's immunization card for each visit. Different growth charts for kids from different ethnic backgrounds for accurate understanding of growth patterns.

In a well check consultation, the pediatrician will ask for a detailed history of the child, will cover nutrition, developmental milestones and a complete physical exam adding age relevant tests or screening (Autism screening at 18mo and 2yrs, Blood pressure check from 5yrs onwards and body mass index for kids 5 yrs and older). Details of the visits and the time frame for scheduling a well check consultation is given below:

1-2 weeks

6wks

10 wks- only vaccine

14 wks

6mo

9 mo vaccine only

12mo

15-18 mo

2 yrs

Annual physical examination after 2 yrs of age

Blood tests and periodic screening schedule:

Hemoglobin levels at 1yr
